Forecast for Saturday 05 Nov 2022

Weather: Cloudy this morning with outbreaks of rain, occasionally heavy, especially across the west. The rain gradually clears away southeast this afternoon, with perhaps some late bright or sunny spells developing. Dry this evening with patchy cloud and clear spells.

Chance of cloud-free hill tops above 800m: Close to zero this morning, gradually increasing to 90% from the northwest this afternoon.

Low Cloud and visibility: Periods or persistent cloud above 450-600m, with patches below in west, slowly becoming just small amounts below the summits, from the northwest this afternoon. Away from cloud visibility good falling to several kilometres in rain, becoming very good this afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Gusts around 60mph over ridges and summits this morning. Feeling very cold on summits, especially in rain.

Forecast for Sunday 06 Nov 2022

Weather: Cloud increasing through the early hours, then a band of heavy showers or longer spells of rain moves east across Snowdonia late in the night. A day of broken cloud and showers follows, with heavy and perhaps thundery showers, which may merge to give some longer spells of rain.

Maximum wind: Southerly or southwesterly 25-30mph, gusts to 50 mph over ridges and summits, increasing a little through the evening.

Chance of cloud-free hill tops above 800m: Around 40% across western hills but nearer 75% in the east.

Low Cloud and visibility: Occasional or periods of cloud above 600-750m lowering to 450m with patches below, in heavier showers and especially across western areas. Outside of cloud visibility very good falling to several kilometres in showers or rain.

Temperature: **Valleys:** Around plus 3 or 4 Celsius in early hours rising to plus 12 or 13 Celsius by day.
At 800m: Around plus 5 Celsius
Freezing level: Above the summits.
